THE WATCH MAGAZINE REDUX

personality Audacious and muscular, Graham timepieces retain an English flavor, inherited from the brand's namesake, London watchmaker George Graham.

function Over-the-top functionality is both the goal and the hallmark of Graham London chronographs, including this aeronautically inspired thumb-operated giant.

power Chronometer-grade Caliber G1733 features automatic winding and powers dual time zone and big date functions.

TIMING BELT

Developed in association with Bugatti automotive, Roland Iten's newest mechanical belt mechanism, the Roland Iten R22 Bugatti Edition buckle, is reminiscent of a fine watch movement. Approximately \$65,000, rolanditen.com

HANDCRAFTED

Crafted in white gold with rose gold accents, weight titanium and stainless steel, each of the limited edition of 22 is entirely hand-polished and assembled by the master craftsman of R. Magnin Bijouterie in Geneva.

MICROMECHANICAL

Bridges, cogs, wheels, springs and pinions interconnect to create a mechanism that allows belt lengths to be adjusted to 1/100th of a centimeter for the ultimate in custom fit.
